

Savitur: resonances of the Sun, Jupiter and Neptune.

The **Sun** represents your being, your essence. That which you wish to express in life, your potential. **Jupiter** is the planet which energy broadens the mind. Jupiter also enhances growth, brings prosperity and interest in spiritual matters.

Neptune is the planet of cosmic love: it calls upon dissolving of all boundaries in consciousness. "The drop falls into the ocean and becomes the ocean".

This music carries you into new dimensions and melts away all images... peaceful silence remains.

Savitur is in particular appropriate for those who experience a joyful heart and open mind. Beings who are eagerly willing to detach from all that has been obscuring their view.

These tones may bring consciousness to the realization of the One in All - appearing in Noble Silence. (The Absolute)

1. The Absolute (meditate silently, watch your breath)	30.00
2. Silence	1.00
3. Om (breathe in deeply and make the sound OM on breathing out)	30.00
Total playing time	61.00

The original music from India, Nepal and Tibet is tuned to the resonance of the Sun, as in the sound/mantra 'Om'. The title of this CD '**Savitur**' is chosen from the **Gayatri Mantra**. The **Gayatri Mantra** is known as one of the oldest prayers, as old as Light and Life-force itself. This prayer calls upon the Highest Wisdom; the brilliant possibility in the cosmos to realize ones True Nature. Our Sun symbolizes **Savitur**, meaning: the radiance in conscious awareness.

The True Earth (Terre de Sacha)

This music contains the sounds of the Earth, Mars and Aquarius with Hemi Sync theta wave sounds on some portions of the track. This music connects you with the power of the Earth, enabling you to **stand** with more clarity and confidence in your daily life.

The HemiSync waves are used to synchronize the right and left side of the brain and consist of **theta waves** for relaxation, meditation and inspiration. The rational part of the brain is (re)aligned with the intuition.

The self-healing capacity and physical –and mental resistance are strengthened.

Dawn of Time

This music expresses the creation of our solar system.

You are carried back to the primordial energy, from which the whole creation came into existence.

Because this is a very strong energy, we recommend that before hearing this track, you should listen several times to 'The True Earth' or other resonance music (Celestial Harmony or Chakra Resonances).
